Raport

la

Lucrarea de laborator Nr. 2

Disciplina: Tehnici de programare

Tema: ” pwn.college”

A efectuat :

st. gr.SI – 264 Șoimaru Gabriel

A verificat :

asistent universitar Reîțman Patricia

Chișinău – 2026

SARCINA LUCRĂRII

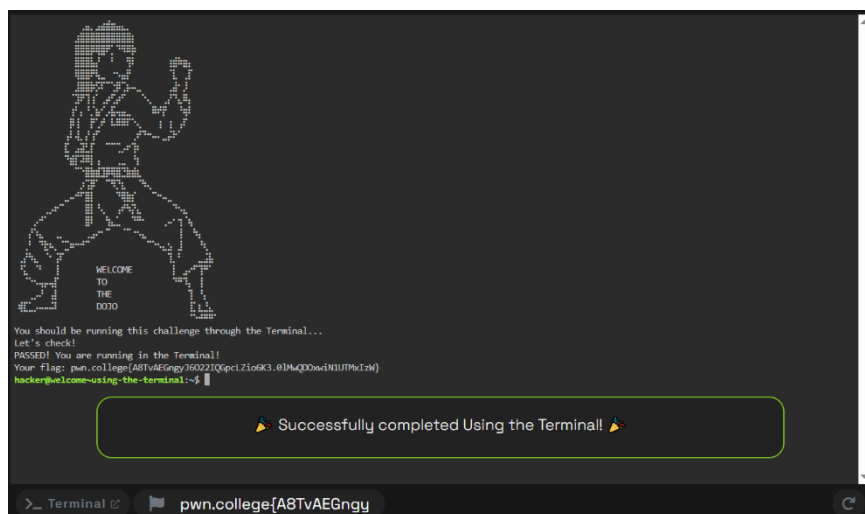

Completarea challenge-urilor de pe pagina „Welcome” a site-ului pwn.college
(12 challenge-uri) (<https://pwn.college/welcome/welcome/>).

Interacting with the Dojo	
Getting Started	
Using the Terminal	18 hacking, 40171 solves
Using the VSCode Workspace	12 hacking, 54168 solves
Using the GUI Desktop	4 hacking, 53320 solves
Pasting into the Desktop	7 hacking, 47797 solves
Connecting over SSH	7 hacking, 0 solves
Restarting Challenges	8 hacking, 42042 solves
Getting Help	4 hacking, 0 solves

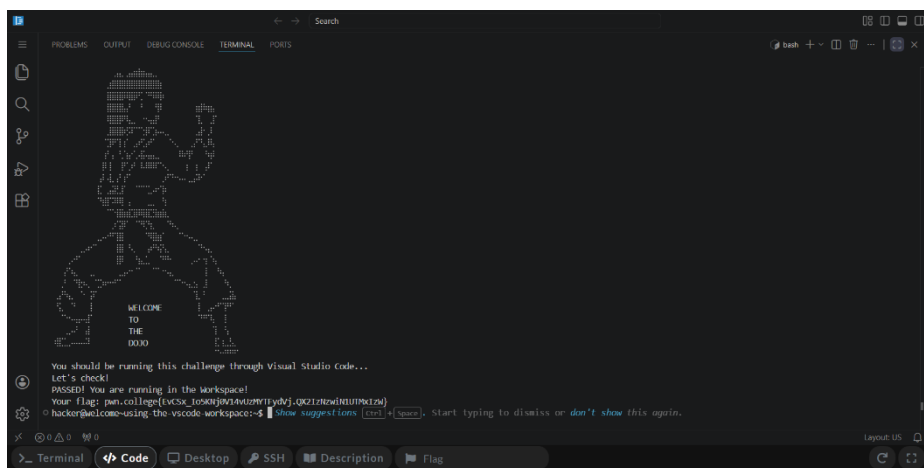

The Challenge Environment	
HACKER BEWARE! The challenges below assume that you are familiar with the basics of the Linux commandline. If you are not, don't worry! Simply do our Linux Luminarium first, then come back and do these challenges!	
Challenge Programs	10 hacking, 35390 solves
The Flag File	4 hacking, 36407 solves
Using Privileged Mode	7 hacking, 33248 solves
Persistent Home Directories - One	32009 solves
Persistent Home Directories - Two	8 hacking, 31862 solves

Applications Terminal - hacker@welcome~pasting-into-the-desktop: ~/Desktop

```
File Edit View Terminal Tabs Help

" " D0J0
. . .

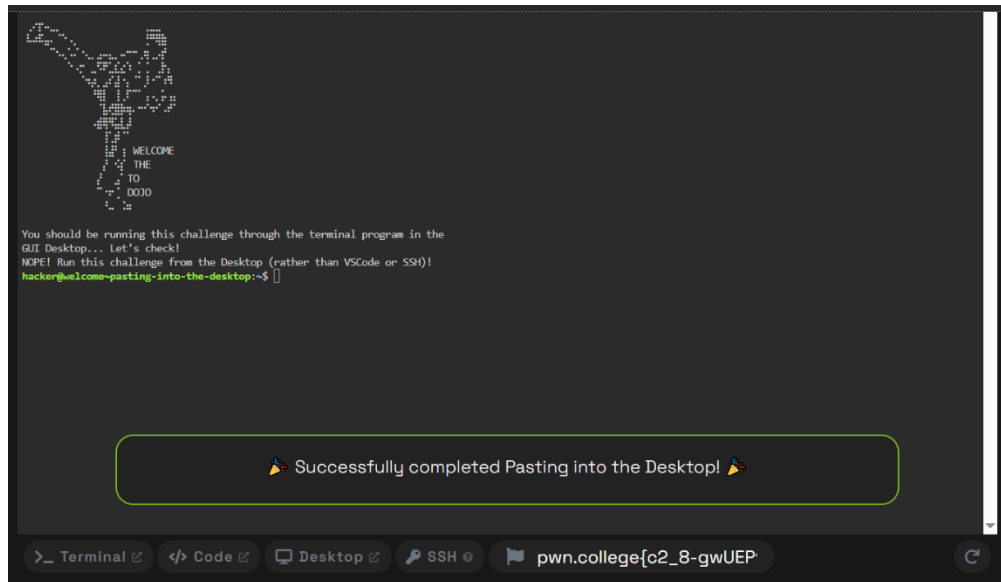

You should be running this challenge through the terminal program in the
GUI Desktop... Let's check!
You are running in the Desktop!

let's learn to paste from outside of the Desktop. Like copying, pasting is a
bit involved... After copying something on your system outside of the dojo
for example, from another browser tab):

1. Click on the > button on the left edge of the Desktop.
2. Click on the Clipboard button. The Dojo's clipboard will appear!
3. Overwrite the contents of the dojo's clipboard with the contents of your
system's clipboard (for example, Ctrl-A followed by Ctrl-V).
4. Now the contents are in the dojo's clipboard!
5. Paste the contents into the terminal (Right Click->Paste).

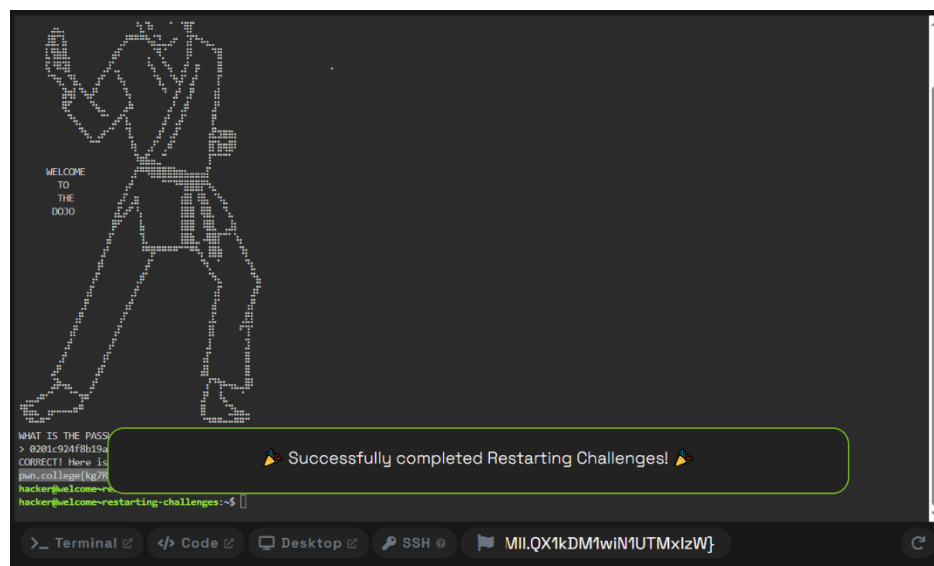

Now, go copy the secret token from the challenge description, then paste it
into this terminal using the steps above!
^f8e5eb3178faf47ce5692f7f618e8f6f0e8769de7dd67ffe62b4375430a31eb9d18a9574e8231

WHAT IS THE PASSWORD??? If you don't know it, just ask SENSAI!
Don't worry, it will happily give you the answer
> pwn-the-planet
CORRECT! Here is your flag:
pwn.college{MPShXTgc8bPDL7i4KLU6BLHqQ.XyIDN1wiN1UTMxIzW}
hacker@welcome-getting-help:~$

```

Successfully completed Getting Help!

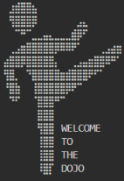

Terminal Code Desktop SSH iQq.QXyIDN1wiN1UTMxIzW}

8.

```

hacker@welcome-challenge-programs:~$ /challenge/solve

```

```

WELCOME
TO
THE
DOJO

.....
Congratulations! Your flag is:
pwn.college{4HbplMzyTE0iaV4KJ52oJ00G5Mc.QX8PD00wiN1UTMxIzW}
hacker@welcome-challenge-programs:~$

```

Successfully completed Challenge Programs!

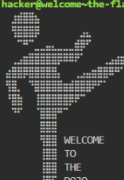

Terminal Code Desktop SSH c.QXOMD00wiN1UTMxIzW}

9.

```

hacker@welcome-the-flag-file:~$ cd /
hacker@welcome-the-flag-file:/$ /challenge/solve

```

```

WELCOME
TO
THE
DOJO

Making the flag world readable (chmod 644 /flag).
.....DONE! Go read /flag (e.g., using cat)!
hacker@welcome-the-flag-file:/$ cat /flag
pwn.college{gdlcqRlUaUJnIrlwKky5QqEZV.QX5IzNzwIN1UTMxIzW}
hacker@welcome-the-flag-file:/$

```

Successfully completed The Flag File!

Terminal Code Desktop SSH E2V.QX5IzNzwiN1UTMxIzW}

10.

```
hacker@practice-welcome~using-privileged-mode:~$ sudo cat /challenge/secret
f8440e72b3a4ea48ff71530e2130ab4f847bcfda05d9d639b6692fd029abcace6f0fc28070256bda0f21
hacker@practice-welcome~using-privileged-mode:~$
```

```
hacker@welcome-using-privileged-mode:~$ /challenge/solve
```

```
WELCOME
TO

THE
DOJO
```

You are not running in Privileged mode! Hopefully, you have already run this challenge in Privileged mode and used sudo to read /challenge/secret. If not, restart this challenge in Privileged mode and do so, then come back to real mode to try this again.

ENTER SECRET: f8440e72b3a4ea48ff71530e2130ab4f847bcfda05d3d39b6692fd029abcac6f0fc28070256bda0f21
CORRECT! Your flag: `pwn.college{4V6Fzxdyc0ZNI0Zp1910ZjBvWIs_UQ4MzNwGNlUTMxIzW}`

```
hacker@welcome-using-privileged-mode:~$
```

🎉 Successfully completed Using Privileged Model 🎉

Terminal Code Desktop SSH Js.QXwMzNwGNlUTMxIzW sudo

11.

```
hacker@welcome-persistent-home-directories-one:~$ /challenge/solve
```

```
=====
      (\)    ...   |  \_
WELCOME ----- TO |-----|'8,
                  : |_____|'---0
THE              // \\ |_____
DOJO            // \\ |_____
               // \\ |_____
snd             |||| .....
```

Please create directory named "leap" in your home directory, and copy the
/challenge/secret file into it! The resulting file should have the path of
/home/hacker/leap/secret and should have the same contents as /challenge/secret.

Once you have done this, rerun this script and I will give you the flag.
`hacker@welcome-persistent-home-directories-one:~$ mkdir ~/leap`
`hacker@welcome-persistent-home-directories-one:~$ cp /challenge/secret ~/leap`
`hacker@welcome-persistent-home-directories-one:~$ /challenge/solve`

```
=====
      (\)    ...   |  \_
WELCOME ----- TO |-----|'8,
                  : |_____|'---0
THE              // \\ |_____
DOJO            // \\ |_____
               // \\ |_____
snd             |||| .....
```

The file is present!
The file stays at:
`/home/collabget/spidee`
`hacker@welcome-persistent-home-directories-one:~$`

Successfully completed Persistent Home Directories - One!

```
_ Terminal </> Code Desktop SSH .5_QXxMzNzwIwNlUTMxlZWj sudo
```

12.

```
hacker@welcome-persistent-home-directories-two:~$ ./challenge/solve
```

```
      .==  
    /   \  
   {     }  
  |_____|  
  |  ^__^  |  
  | (oo)\_______|  
  |  (__)\       )\/\    ||----w.  
  |_____)  (_____/  )\/\    ||----w.  
WELCOME  ^__^  
         |  ___ \|  
         | (_|)/ __)|  
         |____)(/  )\/\    ||----w.  
         |  (__)\       )\/\    ||----w.  
         |_____)  (_____/  )\/\    ||----w.  
THE      |  ___ \|  
DOJO     | (_|)/ __)|  
         |____)(/  )\/\    ||----w.  
         |  (__)\       )\/\    ||----w.  
snd      |_____)  (_____/  )\/\    ||----w.  
         |  ___ \|  
         | (_|)/ __)|  
         |____)(/  )\/\    ||----w.  
         |  (__)\       )\/\    ||----w.  
         |_____)  (_____/  )\/\    ||----w.
```

Congratulations! The file that you created in the last challenge is still present in your home directory! Please keep in mind that, though the contents of /home/hacker/persist, other areas (such as /tmp, /challenge, and so on) do not.

Anyways, here is your flag:

```
penconl0ge{tlwp}PmLiFtB6zhZTlhDQub8K_0XgMzNwiNUTMxIzwJ
```

```
hacker@welcome-persistent-home-directories-two:~$ █
```

🚩 Successfully completed Persistent Home Directories - Two! 🚩

CONCLUZII

Pe parcursul acestei lucrări de laborator am învățat să folosim platforma pwn.college, cum să folosim un terminal și puțin despre structura fișierelor din Linux și comenzile sale.
